Question (3)

At. H & H Auto Saw Mach Co. I was tool keeper & then went to operating Saw Machs. I left there for a better job. Salary was 40 hrs \$39.60.

At. American Saw Co. I was trained as a Machinist tool maker, making end mills, Reamers, Headers Pt. Dies, Chevy End mills, butt mills ect. I left there because of the traveling from Prov. to Willimantic Conn, & also I wanted a job in Prov. I puffed better. Salary - 40 hrs \$55.57

U.S. Rubber Co. I worked building Machinery such as Hot water Bottle Presses, Rubber glove Presses, golf ball Machs. ect. I was forced to leave there due to the talcum powder used at this plant ~~for~~ processing rubber infected my system with hives, therefore I had to leave my salary there was for 40 hrs. \$60.00

Brow & Shape Mfg. Co. I was hired as a milling Mach. operator after 2 weeks of work I was promoted to a Supervisor and remained ~~the~~ such during my 3 yrs ~~of~~ there. There we manufactured Armchair & Chairin Cases for the U.S. Government. I was laid off due to lack of work in my Dept on March 1954. My Salary there was 40 hrs. \$92.80

Yates Mfg. Co:

My present job consists of Repairing all Machins such as Power Presses, Lathes, Milling Mach. Grinders, all Maintenance work. I am attached to the Engineering Dept. and do work for them as, Punches, Making parts for the Machs. Shafts, General Machinework.
